### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Fred Rosenbaum on November 09, 2005.

The application has been amended as follows:

In claim 5, line 5 after the phrase "relative to one another, " the following has been inserted: ---subsequent said link and said rod being completely attached with each other and the modular joint prosthesis is secured to the patient's intramedullary canal, ---.

The following is an examiner's statement of reasons for allowance: After careful consideration of the Applicant's remarks the Examiner has found the independent claims are allowable. There is no evidence in the prior art of a modular joint prosthesis having a link and an intramedullary rod that each run freely and independently movable relative to each other, subsequent said link and said rod being completely attached with each other and the modular joint prosthesis is secure to the patient's intramedullary canal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
